

Who we are?

The PSFS is a non-profit organisation based within the civil service. It provides financial assistance and advice to its members in times of need. It is a completely independent and confidential service.

Meet Kate our new Cases and Development Officer seconded from The Department of Social Protection. Kate has presented to staff or hosted information tables in various Departments over the last few months.

If you feel your Department would benefit from a presentation (online or in-person) or information table from the PSFS please get in touch and we would be happy to arrange this.
